<sup>5</sup> A policy's cash value may be accessed via policy loans and/or partial surrenders. Policy loans accrue interest at a variable loan interest rate and reduce the total cash value and total death benefit by the amount of the outstanding loan and accrued loan interest.

<b>Available riders</b>	Choose from a wide variety of policy riders to customize your policy:
	<b>Accidental Death Benefit</b> — Provides an additional death benefit equal to the face amount of the policy, if the insured dies as a result of an accident prior to age 70. Issue ages 0-65. <sup>6</sup> Available for purchase.
	<b>Children's Insurance</b> — Provides level term insurance on the children of the insured that can be converted to a permanent life insurance policy. Issue ages 16-50. Available for purchase.

	<b>Living Benefits Rider</b> <sup>7</sup> — Gives the policyowner access to a portion of the policy's eligible death benefit should the insured be diagnosed with a terminal illness with a life expectancy of 12 months or less. <sup>8</sup> Issue ages 0-70. Included at no additional cost but must be applied for.
	<b>Spouse's Paid-Up Insurance Purchase Option</b> <sup>9</sup> — At the time of the insured's death, gives the spouse/beneficiary the right to purchase a new paid-up life insurance policy on his/her life without evidence of insurability. Automatically included at no additional cost. Issue ages 0-70.

<sup>6</sup> Age refers to base insured, not age of children. The issue age limits for the spouse are up to insurance age 50, but not more than ten years older than the base insured, and up to actual age 18 for children.
