2018 Employee Climate Survey
2018 Employee Climate Survey Summary

Employees were invited to take the 2018 campus climate survey between Oct. 15 and Nov. 9, 2018. The survey consisted of 79 questions. Thirty-four percent of employees responded to the survey.

A new set of questions were used for the 2018 survey that were targeted to the university’s current environment and university vision and mission.

The feedback collected through this survey:

- Helps the university to understand the perceptions of employees as it relates to diversity, inclusion, leadership, work and learning environment, and job satisfaction.
- Leads to a better understanding of the campus experience for different groups of people.
- Enables the university to develop strategies and make informed decisions that inspire positive change in our campus climate over time.
